

Farming with Panama TR4

Want to learn more about Panama TR4 from those with first-hand experience?

Don't miss this opportunity to hear from Mackays who are meeting the challenges of Panama disease tropical race 4 (Panama TR4) and are trading with the disease.

What's on offer?

- A greater understanding of what to expect if Panama TR4 is detected on your property
- Case studies highlighting the common challenges working on an infested property
- Examples of innovative thinking and farming practice to manage challenges
- Opportunity to hear from Mackay Estates representative
- Opportunities to speak with other growers, the Australian Banana Growers' Council (ABGC), Agri-Science Queensland and Biosecurity Queensland staff.

Biosecurity Queensland's Panama TR4 Program, with the support of the ABGC, is hosting a series of interactive workshops across Far North Queensland.

TULLY WEDNESDAY 6 JUNE

6pm to 8pm: Tully Civic Centre, 38 Bryant Street, Tully

INNISFAIL THURSDAY 14 JUNE

6pm to 8pm : South Johnstone Research Facility, 24 Experimental Station Road, South Johnstone

MAREEBA FRIDAY 15 JUNE

10am to 12pm: John Charles Room, Block A, First Floor, 28 Peters Street, Mareeba

Why should you attend?

Panama TR4 is a challenging disease. We can't predict where it is going to emerge next. It could turn up anywhere so it is best to be prepared!

RSVP Online here: <http://bit.ly/farmingPanamaTR4>
Phone: 07 4091 8140 Email: panamatr4@daf.qld.gov.au
Tully by 4 June, Innisfail and Mareeba by 12 June
