Moshie's specialised Lean Leadership program is designed for current and emerging business leaders, in any industry. The program covers a variety of topics to strengthen leadership effectiveness:

- Combining LEAN & Continuous Improvement with modern Leadership principles to improve efficiency
- Using simple, but effective tools to reduce waste, with measurable Return on Investment
- Enhancing process control, improving quality, reducing costs, and boosting customer satisfaction
- Minimising the impacts of labour shortages by boosting productivity in individuals and teams
- Streamlining your organisational supply chain across all departments - from suppliers to customers
- The importance of utilising simple performance data to drive better business decision making
- Understanding your costs - to accurately price products and services for sustained profitability
- Applying these strategies across all primary production industries, including vegetables, onions, melons, berries, bananas, table grapes, nurseries, turf, and more.
- 10 x 4 hour workshops, delivered fortnightly

Program cost \$4,000 plus GST per participant
